‘Make teaching student-friendly’
Enrichment prog for K’buragi dist high school science teachers begins

KALABURAGI: Teachers should make teaching student-friendly. It should be practical-oriented and should develop scientific temperament among the students, said Central University of Karnataka Pro Vice-Chancellor G R Naik.

He was speaking after inaugurating a two-day enrichment programme for Kalaburagi district high school science teachers at Doddappa Appa Sabha Mantap in SBR Campus on Friday.

He said, “Science is not classroom teaching. Students should have an enquiring mind and should be committed to science only then one can become a scientist.” He said science teachers’ role is crucial in moulding the students who are the future of the country.

He said, former president A P J Abdul Kalam attributed his achievements and success to his inspiring teacher.

Teachers in Hyderabad Karnataka region are extremely talented and want to see their students’ making achievements. Students from the region too are talented and it is visible in the results of the NEET, he said.

Lauding the Royal Society of Chemistry, he said, “After only other basic science. From morning to night all we come either through scanning the barcode or scanning the QR code. The shops that have installed barometric device will get 7% discount.”
