

ENERGY EFFICIENT BUILDINGS WORKSHOP - LOW CARBON MATERIALS AND BUILDING SYSTEMS: 5-10 AUGUST 2019

Coordinator : H. Hemanth Kumar, Executive Secretary

The Indian Institute of Science, Bangalore in association with Karnataka State Council for Science and Technology organised a six day workshop on “Energy Efficient Buildings Workshop - Low Carbon Materials and Building Systems on **Aug 05 – 10, 2019** to provide a platform for information dissemination and exchange, discussions and debates on research and sustainable practice in the field of earthen structures, including materials, building techniques, climate responsive architecture, building-comfort, energy in buildings, climate-change mitigation and emission reduction.

The workshop brought together practicing professionals (engineers and architects), manufacturers, building professionals, designers, academics, researchers and students keenly interested and engaged in the theory and practice of earthen structures. Eminent speakers from India and UK made presentation during the workshop.

Organised workshop for KARNIK engineers at Challakere campus of IISc in February, 2020 on building materials/technologies & sustainable technologies.
